Exhibition: Royal Garden Waste to Fashion's Future

Award winning fashion and multimedia creative directors Vin and Omi will bring their pioneering new eco collection of sustainable innovations to Sandringham in 2024.

Initiated by an invitation from His Majesty The King to explore how plant waste at Royal residences could be utilised, the body of work will include a series of textiles and garments made from nettles, bog cotton, willow, cellulose materials, cow parsley, hydrangea and the world's first textile made from butterbur (a shrub derived from creeping Rhizome) from Sandringham Gardens.

Displayed collectively for the first time inside Sandringham House, the exhibition will be open for visitors to experience from March to October.

About Vin and Omi

Vin and Omi are sustainable creative directors who have been pioneering new eco and sustainable innovations for the last 24yrs. Originating with a national science scholarship, their work has a broad span and impacts environmental, social, educational, design and creativity.

This broad spectrum approach spreads their commitment to saving the environment through many different ways. Their works are collected by museums around the world including the V&A Museum.

Seasonal Highlights: The Topiary Garden

From March – October

Enjoy time to reflect and ponder in the Topiary Garden, designed following traditional geometric principles. Featuring herbaceous perennial plants and bulbs, roses and 5139 Yew tree hedging plants in a range of sizes and shapes.
